

Within the main laws SO.G.I.S. has to comply to are:

- **Regulation 2006/1907/EC (REACH)**
- **Regulation 2008/1272/EC (CLP)**

CLP – Regulation 2008/1272/EC

CLP is Regulation 2008/1272/EC, about classification, labeling and packaging of substances and mixtures. It is an harmonized System for classification and labeling criteria and it is the UN GHS transposition.

It applies to production and use of Chemicals and Mixtures, without limitations on quantities produced on a yearly base. It does not apply to dangerous goods transport, but it is consistent with it.

Since 2010, SO.G.I.S. has always been complying with notification obligations required by this Regulation and, although not compulsory, as almost all of our substances are not classified, has prepared all Safety Information according to the MSDS format required by Regulation 2006/1907/EC.
